

MEDI DEFENSE™

mPower LAUNDRY DETERGENT

MEDI DEFENSE mPower Laundry Detergent is specifically formulated as a regular use detergent which imparts an invisible antimicrobial shield on laundered items. This shield protects against odors and stains associated with mold and bacteria.

Contains EPA registered active cationic antimicrobial which is integrated into the formulation

Do not mix with commercial detergents and avoid the use of bleach
(Commercial detergents - Tide, Cheer, All and others are made with anionic formulations which will negate the effects of the cationic formulation)

Powerful antimicrobial protection combats bacteria and odors between washes

Long lasting antimicrobial formula builds and intensifies with repeated washings

Economical ratio uses 2oz. of laundry detergent to 10lbs of dry weight laundry
(medium/regular load)

Works extremely well to remove and eliminate the microbial source of odors imbedded in fabrics from mold, mildew, algae, fungi, and bacteria and keep them from returning

Detergent is unscented and phosphate free

Available in 1 gallon containers (4 to a case), 5 gallon pails, 55 gallon drums, or 275 gallon totes
